Medical College of Wisconsin presents

Design and Analysis Considerations for an Umbrella Trial for Acute Myeloid L

Megan Othus, PhD

Biography: Dr. Megan Othus is a Professor in the Biostatistics program at the Fred Hutchinson Cancer Research Center. Dr. Othus is the faculty statistician for the SWOG Cancer Research Network Leukemia and F Cancer Committees. In that role, she leads design and analysis of the trials through the committees and the translational medicine projects associated with the trials. Her research focuses on clinical trial design and statistical analysis techniques for clinical trial data. In addition, she is interested in research questions that use SWOG historical data to inform clinical practice and trial design.
