

TABLE TOP EXERCISE PARTICIPANT GUIDE

Hospital Resource and Clinical Management Guidelines for Hospital Healthcare Providers When Routine Critical Care Resources Are Not Available

Time expectations for each session:

SECTION	ACTIVITY	TIME
I	Introduction	5 minutes
II	Exercise Part 1	10 minutes
	Discussion	10 minutes
III	Guidelines Education	20 minutes
IV	Exercise Part 2	20 minutes
	Discussion	15 minutes
V	Evaluation	10 minutes

TOTAL EXERCISE TIME

such as an influenza pandemic, when demand for supplies and services necessary for ventilatory and circulatory support exceeds supply.

2. To provide an ethical, moral and practical framework for decision-making in a public health emergency.
3. To provide an opportunity for members of the hospital medical staff to participate in a tabletop exercise using the Multi-Principled Critical Care Resource Allocation (MCCRAS) triage guidelines.
4. To provide feedback to the State of Wisconsin on mass casualty standards of care.

Exercise Scenario

It is May 2012 and the CDC and WHO have identified a new influenza strain that has documented person to person transmission with all ages susceptible, high infectivity and virulence and with unknown projected mortality rate.

1. The State of Wisconsin Department of Military Affairs Emergency Management Agency has declared a Public Health Emergency due to the number current and projected in hospital patients.
