

Pediatric Simulation Program Q2 2023 Dashboard

Key:

- Boot camps are intensive 4+ hour events that expose learners to various skills needed to lead and manage rare patient scenarios.
- High Fidelity events use highly realistic manikins i.e., SimBaby, SimMan3G
- Mid-fidelity events include limited function manikins i.e., Premature Anne, MegaCode Kid
- Low-Fidelity/task trainer events use task trainers, skills stations, and/or role play.
- *Multidisciplinary participants include a variety of roles such as RN's, RT's, Fellows, NP's, Physicians, PA's, pharmacists, and techs
- Life Support Events not included
